Other Covered Services (Limitations may apply to these services. This isn't a complete list. Please see your plan document.) The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. NOTE: Information about the cost of this plan (called the premium) will be provided separately. This is only a summary. For more information about your coverage, or to get a copy of the complete terms of coverage, contact your employer. Deductible (the amount the Covered Person pays each Benefit Period for Covered Services before the Coinsurance is payable)							
Coinsurance (the percentage amount the Covered Person must pay for most Covered Services after the Deductible has been met)							
In-network and Out-of-network Deductible and Out-of-pocket Limits are separate and do not cross accumulate. All other limits (days, visits, sessions, dollar amounts, etc.) do cross accumulate between In-network and Out-of-network, unless noted differently. Once the annual Out-of-pocket Limit is reached, most Covered Services are payable by the plan at 100% for the rest of the benefit period.							
***Embedded Deductible and Out-of-pocket Limit** – If you have family coverage, each covered family member has their own individual Deductible and Out-of-pocket Limit within the family amounts. Once a family member meets their individual amount, the plan begins paying for that member's Covered Services (or pays at 100% once their Out-of-pocket Limit is met), even if the family amount has not been met. Once the family amount is met by any combination of covered family members, it is considered met for everyone for the rest of the Benefit Period.							
Copays Please note that after your deductible has been met, you will still be responsible for paying copayments for your medical services.							
Copayment(s) (copay(s)) apply to: • Physician Office • Specialist Office • Urgent Care Facility • Prescriptions The Copay amount varies by the type of Covered Services. Refer to the appropriate category for benefit information.							
All Benefits Payable Under This Plan Are Subject To The Plan Allowable.							
Services may require Preauthorization. Failure to obtain Preauthorization will result in denial of benefits.							
Precertification Precertification is required for all in-hospital admissions, imaging (CT/PET/MRI/MRA), home health, skilled nursing, hospice, DME (over $500), chemotherapy/radiation, sleep studies, prosthetics/orthotics, therapies (chiropractic, cardiac, PT/OT/ST), and outpatient surgery. Please refer to the plan document for a complete list of all services that require precertification under your plan.
