WHAT TO KNOW

In-network EPO coverage. Out-of-network care is not covered except where the plan states that emergency services are paid the same as in-network.

Preventive care is covered at no charge. Other services may require a copay or coinsurance. Confirm provider participation at Cigna.com before receiving care.

Embedded family limits. Individual and family deductible and out-of-pocket limits apply as described in the plan document.

Costs that do not count toward the out-of-pocket limit: premiums, balance-billing charges, pre-certification penalties, and care the plan does not cover.

Benefits and limits accumulate on a calendar-year or plan-year basis as stated in the plan document.

Monthly rates are separate from covered-service cost sharing. Refer to enrollment materials for effective dates.
